

Tram

Jaume Artigues and Miguel Roig, 1994

THE CIRCULAR OR RECTANGULAR SHAPED TRAM PLANTER PROVIDES A LARGE CAPACITY FOR PLANTS AND SHRUBS IN ADDITION TO ITS OWN ORNAMENTAL VALUE

- 1 | Alignable
- 2 | Simplicity and adaptability
- 3 | Can incorporate trickle watering in series

Tram Planter

This cast iron planter provides a large capacity for plants and shrubs and adds its own ornamental value, either as a domestic flowerpot or to mark out urban limits. It is

extremely useful in creating alignments. It has holes in the sides of the rectangular models to install trickle watering in series.

Materials and finishes

The planter is made of a single nodular cast iron piece with an anti-rust protection and painted in black.

Maintenance

Maintenance is not required.

Weights

1,00m: 172 Kg.
2,00m: 302 Kg.
Ø 0,90: 190 Kg.

Installation

The unit is simply positioned onto the ground.

Models

It comes in three sizes: 1.00 x 0.45 m; 2.00 x 0.45m, and with a Ø 0.90 m. The height is always 0.50 m.
