

Trapecio Bench

Antonio Montes, Montserrat Periel. 2003

urbidermis
SANTA & COLE

Sizes in cm

Materials:

Made from glulam wood beams that are 4.50 m long with an approximate section of 20 x 40 cm and protected with one-coat oil, or UHPC mass-coloured concrete with waterproof exposed aggregate finish.
Support legs made of primed steel with Light grey painted finish.

Finishes:

Lamelle colle

UHPC earth

UHPC grey

Light grey

*The colors shown are merely indicative and may differ from reality. (Other colors available to order)

**See special finishes for marine environments

Weights (kg):

Wood bench: 380

UHPC concrete bench: 600

Installation and maintenance:

Embedded fixation by means of four stainless steel anchor bolts per structure to concrete cubes sunk 10 cm below the pavement surface.

Delivered in two parts: beams and support legs.

Instructions, screws and anchor bolts are included.

No functional maintenance is required, others than to maintain the original wood finish.
