Weight (kg): 122

Installation and maintenance:

Anchored using four bolts, 10 cm below the ground.

For temperatures $\leq 0^{\circ}$ C, we recommend turning off the water and draining the circuit to avoid freezing and breackage. Delivered unassembled and packaged in two parts: monolith with spout and grates with frame according to needs. Instructions and anchor bolts are included.

No functional maintenance is required, others than standard interior and push-button cleaning. (For further information log onto urbidermis.com)
